

Updated: 3/5/2020

Hello!!

We are looking forward to dancing with you this weekend!

As you know and I am sure you have many parents asking about the Coronavirus and how it affects this weekends event.

Hollywood Vibe has been and will continue to monitor the situation closely as everyones safety is truly important to us. We have also been in contact with the hotel as well as the school districts.

The hotel is not closing for quarantine, there are no airline travel bans into the area, public schools are still open, as well as small businesses. If the situation changes, then we can go from there.

The Surgeon General is recommending to take more precautionary measures such as Hand Washing for at least 20 seconds, covering your mouth when coughing/sneezing, fist bumping instead of hand shaking, staying home when sick, good hygiene habits, etc. World Health Organization has said that the Flu is transmitted easier than the Coronavirus is.

We would advise to talk to your dancers about this and the precautionary measures they can take to help. If there is anyone that is sick or elderly, may want to avoid the event this weekend.

Hyatt Regency SFO Statement:

Hyatt Regency San Francisco Airport is committed to caring for our guests, colleagues and customers, as your safety and wellbeing is a top priority. At this time, City of San Francisco has zero confirmed cases of COVID-19 originating in the city.

On February 25, 2020, in response to the COVID-19 situation, San Francisco Mayor London Breed made an emergency declaration to strengthen the city's preparedness to respond to COVID-19. The declaration of a local emergency allows the city to utilize city resources, coordinate agencies across the city, and more – all to bolster resources in an effort to protect the city from the spread of the virus.

This declaration does not affect the operation of the hotel or our ability to serve your group and our guests.

Hyatt Regency San Francisco Airport continues to closely monitor the COVID-19 situation, remain vigilant and follow recommended precautionary measures, protocols and guidelines from various health organizations including the World Health Organization (WHO), U.S. Centers for Disease Control and Prevention (CDC), and local authorities, in an effort to ensure our guests, colleagues and customers remain in a safe and healthy environment.

In January 2020, a comprehensive guide about COVID-19 was shared with all Hyatt hotels globally as well as guidelines on how best to operate given the situation. Some specific measures in place at Hyatt Regency San Francisco Airport include select screening measures with guests upon arrival and additional cleaning measures in public areas, restaurants, meeting spaces, guestrooms, spa, and fitness centers. In addition, in the interest of all guests and colleagues, if a guest or colleague exhibits symptoms of COVID-19, it remains a high priority for our hotel to safely relocate these individuals to a place where they may receive appropriate medical attention.

We will continue to follow recommended measures, as provided by the San Francisco Department of Public Health. As this situation evolves, we will continue to evaluate and make operational changes as needed.

Further, Hyatt has assembled a global cross-functional response team to monitor new information and promptly update company-wide guidance – and Hyatt has also engaged an infectious diseases and health expert to provide COVID-19 research findings and information.
